

Python Seaborn Tutorial Part - 6 and Part - 7

How to draw Seaborn Barplot / Bar Graph?

```
# Import libraries
```

```
import seaborn as sns # for data visualization
```

```
import numpy as np # for numeric computing
```

```
import matplotlib.pyplot as plt
```

```
# load dataset from GitHub seaborn repository
```

```
tips_df = sns.load_dataset("tips")
```

```
tips_df
```
